

## Technical Changes 2007

Dear Ladies and Gentlemen,

In 2007 changes were made to the following products:

### FS 3403 VRG

Since February 2007 the Universal adapter Part No 259.827 is included as standard equipment for the FS 3403 VRG .

### H 1127 VE und WS 1505 FR

Since 03.2007 the sealing ring 121.665 is no longer fitted into these machines. Modern bearing seals have made this ring unnecessary. Also by repairs this sealing ring is no longer needed.

### LG 1704 VR & LG 1707 FR

Since March the four M5 x 16 screws Part No 105872. Have been replaced by micro Capsulated screws with Part No 271.233

### LW 1703 S 120/CSA-5/8“

Since April 2007 the bearing cover 257.289 has been replaced by the 154.997 Bearing cover

**This change only applies to the LW 1703 S 120/CSA-5/8“ Part No. 311.359!!“**

## Carbon brush cap

Because of a change of supplier that took place in June 2007 we had to give the carbon brush cap a new Part number. Machines affected are those with the metal composite housing.

Changes are as follows:

	<i>Old-Part</i>	<i>New – Part</i>
<b>Description</b>	<b>Part No.</b>	<b>Part No.</b>
Carbon brush cap M24x1	120.057	<b>334.995</b>
Carbon brush cap M20x1	108.014	<b>335.002</b>

## WS 1505 FR, H 1105 VE

As from the 02.07.07 both of the above machines will be fitted with stronger gears, because of the new design the individual parts **cannot** be exchanged 1:1.

A new gear repair set that includes a pinion, crownwheel and a drive shaft is now available ( the drive shaft is only for the WS 1505 FR) .

The change is as below:

	<i>Old - Part</i>	<i>New – Part</i>
<b>Description</b>	<b>Part No.</b>	<b>Part No.</b>
Crownwheel	256.704	--
Pinion	256.705	--
Repair Set	--	<b>338.796</b>

## LD 3206 C

Since July 2007 the “tried and tested” anti-vibrations element from the L3206/08 CD is being built into the LD 3206C.

Please note the following change:

	<i>Old – Part</i>	<i>New –Part</i>
<b>Description</b>	<b>Part No.</b>	<b>Part No.</b>
Motor housing	279.463	<b>322.733</b>

For repair the old housing can be exchanged 1 to 1 with the new housing.

## Label Anlaufstrombegrenzung (Soft Start)

The Label Anlaufstrombegrenzung will no longer be stuck on the machines. This Label first appeared about 30 years ago when an Anlaufstrombegrenzung (Soft Start) was something special. Over the years this has now become standard so that it is no longer worth advertising.

**Anlaufstrombegrenzung**  
+ Sanftanlauf für Ihre Sicherheit

The following machines are affected:
